If there has any prosperity struck Stanford our Christmas issue gives no evidence of it, for never since we have been in the business have so few of our merchants inserted Christmas advertisements.

"SHOWING them the Christmas things, are you?" was asked of a shabbily dressed man, with two children thinly clad. "Yes sir, that's all I can do for them," was the reply, which made the hearts of those who heard it ache.

MR. W. S. WARREN, who lives in the edge of town, caught an opossum the other night that had "clim" his apple tree. He weighed nine pounds and made fine eating. By the way Charley Armstrong, who caught the one near town, gave a supper with him and realized \$4.50.

THE boss has recommended that a postoffice be established at Will W. White's store at Dawson's Mill with him as postmaster. The mail will be taken from here by a special carrier and as the store is on the other side of the Hanging Fork, which has to be forded to get there and which often is past fording in the winter time, the need of such an office is not apparent. If established it will be named Lytle, in honor of the late county judge.

THE case of Martin Fisher vs. the Cincinnati Southern Railroad Co. was on trial all day yesterday in the special term of circuit court. It is for \$1,000 damages claimed to have been sustained by reason of the company building an embankment and causing water to overflow plaintiff's land. He has another suit for the same amount and for the same cause. Hon. R. C. Warren represents Fisher and Judge J. W. Alcorn the railroad.

THE fiscal court decided Monday not to meet until the Chicago firm had reported definitely whether it will take the bonds or not and without notice to anybody recalled their meeting for Tuesday. A number of turnpike men were on hand, hoping to be able to close out satisfactorily to all concerned, including Thomas McRoberts, J. J. Craig, George McRoberts and Wm. Warren, representing the Danville & Hustonville pike, J. L. Bruce, the Lancaster & Danville, and G. C. Lyon, the Hustonville & Coffey's Mill. It is thought that when the court meets again, offers will be made that will be accepted.

SOLDIERS are in charge of the toll-gate near Danville on the Crab Orchard & Danville pike. On application of President J. S. Bosley and J. H. McAllister, the largest individual stockholder, Gov. Bradley ordered Col. Galt to take the Harrodsburg company of State guards to the gate and see that the proposed second raid was thwarted. The soldiers took charge at 10 o'clock Monday night and still hold the fort, or rather the gate. They number 23 and all the raiders this side of hades couldn't scare them, much less damage anything. The citizens of Boyle, we learn from the Advocate, are indignant that the governor should send troops to Boyle on application from Lincoln county people, but when the county judge of Boyle only orders two guards to protect a gate and would not hear to an increase, their indignation loses all grounds for it. What could two guards do with a mob and the tollgate keeper scared out of his wits, so much so that he has since abandoned the gate? We are as much opposed to the use of soldiers as any man can be, but when the local authorities refuse to act and the State's property is in danger the governor would be remiss in his duty if he failed to order out enough men to protect it.
